

Carl

A team of us were on Brighton seafront doing outreach one Saturday afternoon in July. Someone was preaching over a microphone, and I was looking out for people to talk to and pray for. Carl was passing and briefly stopped, so I was able to chat and pray with him. He was at a low ebb due to pain and was happy to be prayed for. After prayer he said he felt lighter (I often find that this happens after I command spiritual oppression to go in the Name of Jesus). I invited him to the church and he has been coming regularly ever since.

Carl developed osteomyelitis at the age of 5 after an accident. He is on medication for severe pain in his body and since praying for him his medication has reduced by half.

Carl attended the Alpha Course in October and is now saved and baptised. Since his decision to follow Jesus, giving all his burdens to Him, Carl feels revitalised.
