On the evening of Tuesday 07/02/2023, I was at the evangelical church of Saint-Pol-sur-Mer (FR) to attend Martin's teaching sessions.

At the end of the evening, Martin asked those who wished to receive more of the Holy Spirit, to raise their hands so that the assembly could pray for them. At first, I was hesitant, not sure what it was exactly, but the church pastor encouraged me to raise my hand. I was aware of the presence of folk around me and their prayers. Deep inside me, I called on the Lord and the Holy Spirit. I was expectant. I started to say a few words that I heard ... I felt like a knot inside me, something rising, my mouth wanted to speak, and suddenly I started speaking in tongues, I felt such an intensifying presence inside me, my voice became more and more strong. I felt good, happy.

On returning home, I praised and glorified the Lord for this gift, His gift, and then I started speaking in tongues again. The next day, for several hours, I prayed in tongues, spoke in tongues, sang in tongues.

I have understood how important it is to give space and control to the Lord and the Holy Spirit, not to resist Him but to accept it without fear, to trust in Him. Glory to God, glory to Jesus, glory to the Holy Spirit.
