

Praying for folk in public places

Goal: Enable folk to experience the presence of God from the presence that you carry.

1.If you daily live conscious of God's presence you will be more inclined to be used in the supernatural.

2.Don't pray in a way that distances your attention from God.

3.Don't pray in a way that could be embarrassing for someone or that could undermine his/her dignity.

4.Don't preach during your praying. Don't claim to be directing a prayer towards God when really you are indirectly speaking to the person.

5.Resist the temptation to give council. Above all, allow God to reveal his heart to the person.

6.Be sincere and remain simple. Amazingly spiritual prayers will not be rewarded!

God has equipped us to serve the lost.

We make up those that were lost but that God has found.

If we are open to serving them in prayer, they will give us their trust and share their problems.
